## DWM-4,800 Reverse Osmosis System

Features:  
 Included Pre-Filter, High Flow, Low Energy Membranes,  
 Fiberglass Membrane Housings, Programmable Automatic  
 Membrane Flush, Low Inlet Water Pressure Safety Shut-Off,  
 Programmable Automatic System Re-Start

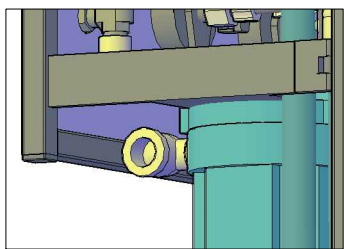

### Plumbing

RO Permeate and Concentrate  
 Outlet: Both 1/2" OD JACO

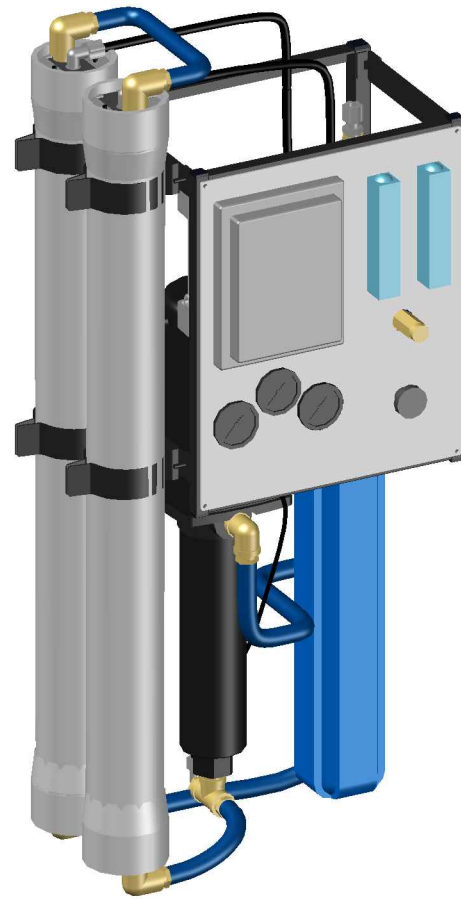

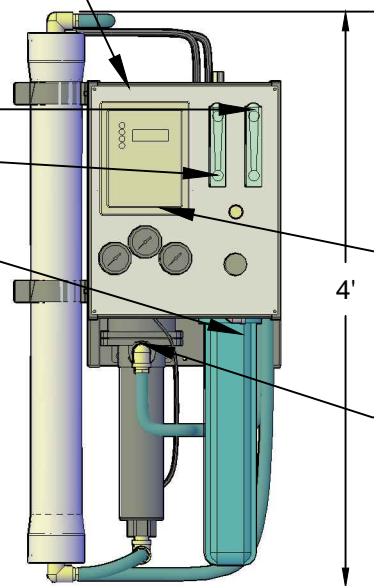

Permeate Flow Meter  
 Concentrate Flow Meter

RO Inlet: 1.0" FPT

**Flow Rates:**  
 Supply (Feed Water): 4.9 GPM  
 Permeate (Product): 3.4 GPM  
 Concentrate (Reject): 1.5 GPM  
 Production: 4,800 gpd  
 Membranes Included: 2

### Footprint

22.5" W x 14" D x 48" H

### Product Display

RO Status, Permeate TDS & Temperature,  
 Feed Water TDS, Percent Reject, RO Time

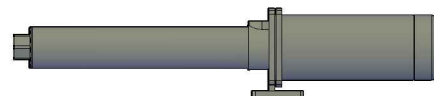

### Electrical

#### DWM-4800 Controller

Requires 120/230V Power Supply (Switch inside)  
 Includes 10' Power Cord and Male L6-20 Plug

Internal Pump (1.0 HP)

	230V	230V	460V
Phase (φ):	1	3	3
Max Load (A):	9.6	4.7	2.35
Branch Fuse Rating (A):	15	15	15
0-100' AWG:	14	14	14
Inlet Size:	3/4"		
Outlet Size:	3/4"		

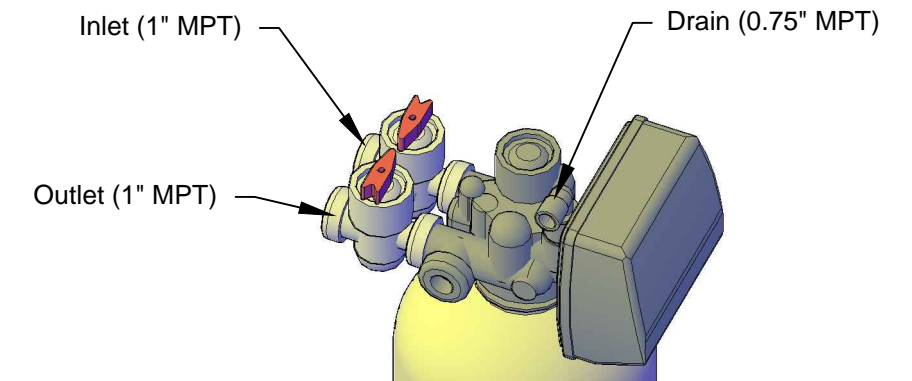

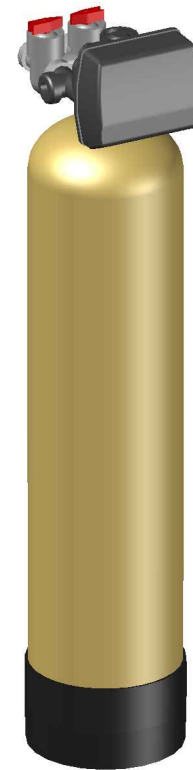

## DCF6-100-100 AC Carbon Filter

Includes: 1.0 CuFt of Media  
 Service Flow Rate: 3 gpm  
 Peak Flow: 6 gpm  
 Drain Flow: 5.3 gpm  
 Weight: 70 lbs

Supply: 110 V, 1φ, 4A

Standard 110V receptacle to accept a wall plug-in transformer  
 (System is supplied with 10' electrical cord & plug)

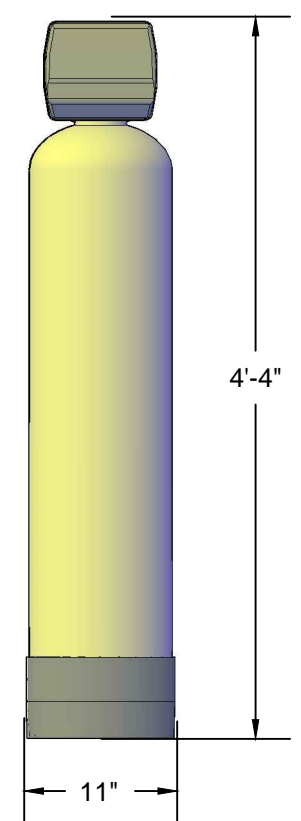

BACKWASHING (Pre-Treat)

OPERATION

MICROSWITCH  
 Part #: 65-0026-XX  
 (Backwashing)  
 Plugs into back of  
 RO System Control
